THE STAND
AHMADINEJAD

A 21st century Adolf Hitler, this man is.

This war-monger, hate-monger, is the President of Iran. This tyrant in the making has one major policy objective. Mahmoud Ahmadinejad wants to wipe Israel off the map, off the face of the Earth.

This noble statesman just completed business to every Iranian city in town and what he said was most enlightening. Here are some examples.

“This regime (Israel) will one day disappear. The Zionist regime is a rotten tree that will be blown away by one storm.”

Israel is a rotten tree and this great Arab tyrant intends to blow it away with one storm, quite obviously a nuclear storm.

And more.

Ahmadinejad said:

“The countdown for the destruction of Israel has begun. Zionists are the personification of Satan.”

Countdown for the destruction. If Iran is preparing for war, the mighty storm which will destroy Israel, then perhaps Israel should make a preemptive strike, a mighty storm of its own, against Iran. With such a threat-promise, should Israel sit back and wait for a nuclear holocaust to occur before it makes a move? Oh, and by the way says Mahmoud, Israel and the Jews are the personification of SATAN. Can't be more clear than that, can he? Small wonder so many Christians, especially Evangelical Christians stand up for Israel and against Iran, determined that they and the Jews of the world and Israel will never, ever allow a holocaust, a slaughter of the Jews, to happen again. So, time once again to hear loud and clear that famous Israeli commitment:

“NEVER AGAIN!”

More from this madman:

“In the case of any unwise move by the fake regime of Israel, Iran’s response will be so destructive and quick the regime will regret its move forever.”

The only way an Iran response could be “so destructive” would be a nuclear response. The world knows Israel has nuclear weapons. If Iran would ever unleash or even attempt to unleash a nuclear attack on Israel, Israel would have the capability of totally destroying Iran and in fact most if not all of the Middle East with nuclear weapons. That would indeed be the beginning of Armageddon. Men like Ahmadinejad care less because, if they are martyred, they incur the favor of Allah and all the heavenly benefits of martyrdom. To live is to win and to die is gain, so such fanatics believe. On then with the nuclear holocaust, no matter what happens.

And some more from this unbelievable President:

“The West invented the myth of the massacre of the Jews (in World War II) and placed it above Allah, religions and prophets.”

The slaughter of 6 million Jews by another Jew-hating lunatic in the 1940’s was a fictional fabrication made up by the West, and by Israel, and never happened, so says this most enlightened President. Someone should have the pleasure of taking this irrational, hate-monger to Dachau, or Auschwitz, or to that incredible holocaust memorial Yad Vashem in Israel, permanent reminders of the slaughter of the Jews by the early predecessors of Ahmadinejad. Even then, this extreme bigot would probably never believe.

Not just Israel, but the whole world:

“We don’t shy away from declaring Islam is ready to rule the world. The wave of the Islamist revolution will soon reach the entire world.”

Watch out world, here they come. In a world ruled by Islam or anywhere it is dominant, all other people and things religious will be done away with. This is scary stuff, and the response of the world, particularly Europe, at this point in time is pathetic and feeble. This extreme, terroristic aspect of Islam understands nothing but force and confrontation. Those are two weapons which the West does not appear to intend to use, except America of course.

More:

“Soon Islam will become a dominating force in the world, occupying first place in the number of followers among all other religions.”

Watch out when that happens. There is not now and there never will be any accommodation between Islam and any other religion. Ahmadinejad has no doubt that Islam would prevail, no doubt at all. The reason simply put is that to live is to perpetuate the struggle and to die in that struggle is the best of all worlds, martyrdom. More from him:

"Is there a craft more beautiful, more sublime, more divine, than the craft of giving yourself to martyrdom and becoming holy? Do not doubt Allah will prevail, and Islam will concur mountaintops of the entire world. Iran can recruit hundreds of suicide bombers a day. Suicide is an invincible weapon. Suicide bombers in this land showed us the way, and they enlighten our future. The will to commit suicide is one of the best ways of life."

Incredible isn't it? Iran can recruit hundreds of suicide bombers a day. HUNDREDS! They want to die, to kill, to destroy. If a man or woman is intent upon committing suicide, and cares nothing of death, there is almost no way to stop what they intend to do. This maniacal President thinks that suicide bombers enlightened the future of Iran and Islam. Caring little for the contradiction, Mahmoud declares that the will to commit suicide is one of the best ways of life. Life? Suicide and the killing of others is satanic, as evil as anything can be. This my friends is scary stuff.

Here then comes the real truth:

"By the grace of Allah we will be a nuclear power and Iran does not give a damn about demands (to freeze enrichment of nuclear fuel). Iran does not give a damn about resolutions."

Recall the words of Ahmadinejad and Iran to the world that the development of nuclear capability was strictly for peaceful purposes. What a bunch of bologna. The development of nuclear capability is solely for the purpose of war, nuclear war, and nuclear war against Israel and the US. Iran could care less that the world thinks, and it could care less what the United Nations thinks. No wonder there are many who believe that Israel and the United States should attack Iran before Iran attacks them.

More on nuclear capability:

"The Islamic Republic of Iran has the capacity to quickly become a world superpower. Iran's enemies know your courage, faith and commitment to Islam and Iran has created a powerful army that can powerfully defend the political borders and the integrity of the Iranian nation and cut off the hand of any aggressor and place the sign of disgrace on their forehead."

That is the real motivation for nuclear development. Iran wants to become a world superpower. This small nation has 23 nuclear facilities at work, 23! They can create enormous capacity and potential. Experts say that both the United States and Israel have contingency plans to take out and destroy all of Iran's 23 nuclear facilities and there are many who believe such a plan of attack should be implemented before it is too late. If not, you can count on Iran dealing death and destruction to Israel, and even to the US itself.

Addressing a conference on THE WORLD WITHOUT ZIONISM, Ahmadinejad said:

“To those who doubt, to those who say it is not possible, I say accomplishment of a world without America and Israel is both possible and feasible.”

Can't say it any more clearly than that, can he? That is his sole purpose in terms of foreign policy, the total elimination of Israel and America. And so much of the world, including and especially the powerless United Nations, an emasculated Europe, and even America itself continues to negotiate with Iran, with Ahmadinejad as though there were some possibility that talk and reason could change the mind and plans of this nation and this killer. It will never happen. Something nuclear, horrifically death dealing and destructive will happen before this man and Iran would ever listen to reason. It is coming, a brutal, world-destroying war, one way or another, sooner or later. Armageddon of some type is upon us. God help us as a nation if we do not recognize this, not as a possibility, or probability, but as a certainty. We owe it to the free world, our great country, our way of life, our families and friends, to understand and destroy this real threat before it in fact destroys us. If we don't, it will.
