EVERYONE SHOULD PAY INCOME TAXES

Everyone.

No one, not any single individual who has the privilege of living in the one-of-a-kind country America should pay income taxes, whatever the percentage of income.

Ten percent of our citizens make more than \$92,400 a year. Therefore, 90% make less. That 10%, \$92,400 a year American citizens pay 72.4% of the nation's income taxes! Allow me to repeat that. Ten percent of the country making more than \$92,400 a year pay 72.4% of the nation's income taxes!

Obama and the Democrat controlled Congress, in their maniacal drive to introduce a so called new fairness to the taxing system, think that percentage, unfair on its face, itself is unfair and the taxes on that 10% of our population should be increased or the while the taxes on the other 90% should be decreased. That is the most fascinating definition of FAIRNESS don't you think? Does that sound fair to you?

EVERY AMERICAN CITIZEN SHOULD PAY SOME INCOME TAX!

Democrats say that Republicans unfairly change the tax code to favor the wealthy so that the wealthy will pay less in taxes and the average citizen, the so called middle class, would pay more. The truth of the matter is that when George W. Bush was elected President in the year 2000 and the income tax percentages were changed, the so called wealthy at that time paid 67.8% of all taxes and when Bush left office this year, the so called wealthy paid more income tax than ever, increasing from 67.8% to 72.4%. So, the poor wealthy had their taxes increase in excess of 8% while the rest of our nation, over taxed and over burdened saw their taxes decrease. Ask a Democrat to explain that anomaly. Ask a Democrat, from Obama on down, to explain how that translates into FAIRNESS!

According to the Congressional Budget Office (CBO), Americans who made less than \$44,300 in 2001 paid a paltry 3.3% of all income taxes collected by the Federal Government. 3.3%! Those individuals represent 60% of our country's population. 60%! Sixty percent of all Americans earning income paid 3.3% of all income taxes. Does that sound fair to you? By the year 2005, in the Bush administration, almost all of those tax payers were excused from paying any income tax at all. Again, almost all of that 60% tax payer block were excused from paying any income tax at all. NONE WHATSOEVER! In that year, that 60% paid less than 1% of the income tax burden for

our entire country. Does that sound fair to you? When this category of American citizens makes almost 26% of all the income in America and they pay only 0.6%, ONCE AGAIN 0.6%, of the income tax what a deal those citizens get. Talk about redistribution of wealth. Talk about UNFAIRNESS in the taxing system, and the attacks of Obama and the Democrats on the so called wealthy. The American tax system is riddled with unfairness and under the Obama plans, will become more unfair with every CHANGE Obama intends to make.

Time to fight, don't you think? Time to say no, emphatically no. Time for more TEA PARTIES. Time not only for more purpose but time to get these people out of office before the American financial standards, structure and economy are totally destroyed.

So, I ask you again, my fellow citizens, is it fair for 10% of our citizens to pay more than 70% of all the income taxes and 90% to pay less than 30%? Is that fair? If Obama and the Democrats in the House and Senate had their way, the wealthy would pay all or virtually all of all the taxes now and forever more. The financial policies of this President and the existing Congress will bankrupt and ruin our country in ways never before thought possible.

If the full impact of the Obama taxing policies become law, ALMOST 50% OF THE COUNTRY WILL NO LONGER PAY ANY INCOME TAXES WHATSOEVER! None whatsoever! Does that sound fair to you? One out of two Americans will live in this country and pay no taxes of any kind. NONE! Though, paying nothing, will have the advantage of the world's finest military for protection, social security benefits, Medicare and Medicaid opportunities, educational privileges, the full functioning of the court system and our government at work in so many ways, all to their advantage and benefit and these citizens, one out of two of us will pay in income taxes:

NOTHING!

Nothing.

So much for Obama FAIRNESS. From an old movie, I offer you the following quote:

"I'M MAD AS HELL AND I WILL NOT TAKE IT ANYMORE!"

Enough is enough. When it comes to politics, government, and all of life, remember the words of Bill Clinton:

"It's the economy stupid"

It is all about the economy, and taxes, and debt, and government intervention for those are the things that really get the attention of all Americans. When lifestyle fundamentally changes, people pay attention. One can argue forever about abortion, homosexuality, pornography, euthanasia, education and the like but so much of the end result is rhetoric, more dialogue and without concrete action.

BUT, when lifestyles change, when the money is no longer there, when the full effects of governments at every level gone mad taxing anything, everything and everybody, are

fully felt, Americans pay attention and they finally be induced to act. That time, my friends, is NOW. If we don't act now, the America we knew even one year ago will be gone forever. We are destroying our lifestyle and mortgaging our children's' future to the hilt. Those you love, sons and daughters, grandchildren, the generations to follow will never, ever have the lifestyle we enjoy. They will be saddled with debt, socialism, government intervention, and restricting demands on lifestyle that we can not possibly imagine. This will be our legacy to them and they will never forgive us for it.

Our Federal Government is running an almost \$2 trillion deficit. TWO TRILLION! With that reality, no one, the poorest among us, should not have their taxes cut. NO ONE!

If you live in this great country and enjoy its benefits, YOU should pay taxes, and you should pay them gladly. Whether it is 5%, 10%, 15% of your income, YOU should pay taxes for the privilege of being an American.

Taxing the so called wealthy, those who make more than \$92,400 a year, is one stupid philosophy. If Democrats especially, or Republicans for that matter, adopt and embrace such a policy, it will ruin our country. RUIN IT! You can not tax unfairly so people who are productive, make things happen, live extraordinary lives and produce the product which America desperately needs more than anything else:

GROWTH

For the most part, the wealthy are creative, doers, people who make things happen. You can not destroy their ambition, will, motivation to succeed and to make things happen. THE OBAMA PRACTICE PLANS WILL DO EXACTLY THAT! If that is the change in fact that Barack Obama intends for America:

I AM AGAINST IT AND HIM!

No matter who you are, or what you earn, you, and I, must rethink our principles, our financial values, the income we make and the income taxes we pay, and we must stand up for what we think is RIGHT. If we don't, and do it now, we won't have an opportunity to do so in the years to come. WE JUST WON'T!

If you care for your lifestyle, now, and for America for all the incredible opportunity it offers, now, and you care that your children have this very same lifestyle with its opportunities. And perhaps more importantly your grandchildren and generations to come, you need to stand up now.

The insane spending of our government must stop and stop now. The taxes which will inevitably follow can not be allowed and concerned citizens must make certain that the UNFAIR taxes which will be proposed by Obama and his fellow Democrats can not be allowed to happen. What Obama and company propose is not fairness, it is gross UNFAIRNESS.

I am ready for battle. I hope you are.

Enough is enough. There will be no America as we know it unless:

WE THE PEOPLE HAVE HAD ENOUGH!
