Expanded Definitions below, but first, a personal note to Pastors from Bob Dutko.

Dear Pastor,

I know many Pastors are concerned about what a guest speaker may say to his congregation, and rightfully so. I want to personally assure you that I am mindful of this and very sensitive to never cross into Doctrinal or Theological areas which may or may not be consistent with yours. As the Pastor, that is your role, not mine and I want you to know I will always respect that. I invite you to read my enclosed Statement of Faith and although this is what I believe, any talks I give will be strictly limited to the context of the topic you select (unless you instruct me otherwise).

Also, as you may know, I am not shy about voicing my Conservative political opinions on the radio, but that is on the radio. I have spoken at well over 100 churches in the area and have never, nor will I ever "go political" on you (again, unless you instruct me to). My desire is to serve the Lord by serving the needs of you and your church without compromising my beliefs or Statement of Faith.

Thank you and God bless,

Bob Dutko

- 1) A comparison between Christianity and other religions, showing that Jesus Christ stands alone as the one true means of salvation and the only "religion" that stands the test of scrutiny.
- 2) The reinventing of Jesus through Unity Churches, New Age Christianity and Pluralism. This deals with the reality and dangers of pluralistic teachings that "all paths lead to God", "there is no Hell" and that "everyone ultimately goes to Heaven", as well as counterfeit Christianity that denies Jesus as the **sole means** by which we are saved.
- 3) An intellectual defense for the physical resurrection of Jesus Christ, showing that through logic, reasoning, history and science we can believe in the resurrection as an actual historic event.
- 4) Bob's personal testimony where he will share openly his life of growing up in a religious cult, involvement in various demonic activities, getting saved and walking through many trials including watching his teenage daughter die in his arms in 2002. This will focus on encouraging believers to remain faithful in all circumstances, remembering that even in the most confusing of times, God never leaves us or forsakes us.
- 5) Strengthening and redeveloping our faith and trust in God. This addresses those times when we struggle with trusting God, when our faith is weakened and when God just seems to "not make sense". How we can develop a rock solid faith that stands amidst the tests, trials and doubts.

- 6) Men's issues such as understanding the unique call God has on men's lives and how to be true men of God. Perfect for men's events, prayer breakfasts, men's weekend retreats, father/son events, etc.
- 7) An examination of the scientific evidence for Biblical Creation, showing the many ways in which Darwinian Evolution is scientifically impossible by using actual documented evidence from the nation's leading Creation Scientists currently censored from school textbooks.
- 8) Scientific evidence for the existence of God, showing that a belief in God can actually be substantiated logically, scientifically and mathematically.
- 9) An examination of Theistic Evolution including the Biblical reasons why God did not use Evolution as His means of creation.
- 10) An explanation on what really happened to the Dinosaurs, including fascinating scientific and historical evidence showing that Dinosaurs did not die out 65 million years ago, but actually went on the Ark with Noah and died out fairly recently.
- 11) Examining the amazing historic evidence of America's Christian heritage, showing that the "Separation of Church and State" is not only a myth, but that our country has a history of actually endorsing and even promoting Christianity.
- 12) Exposing the truth about abortion and the abortion industry with facts, evidence and history that most people are unaware of. This will expose the dishonesty of the "pro-choice" argument while reminding women that there is still always forgiveness in Christ.
- 13) An honest look at the growing and troubling acceptance of Homosexuality in the Church, the false teachings that are fueling this acceptance and how we as Christians can address this issue with love, grace and forgiveness **without** compromising what God's Word says about sin and repentance.

Feel free to request a particular topic if you prefer a subject that is not listed.
